

2021 Annual Report

Our Mission

River House's mission is to provide adult day care that works for all families.

Adults who wish to remain in their community but require daytime assistance come to River House up to five days a week to participate in vibrant activities, socialize with their peers, and receive compassionate care. Individuals challenged with dementia, Alzheimer's disease, arthritis, diabetes, stroke, depression, traumatic brain injury, cardiac or pulmonary disease, vision/hearing loss, or other age-related ailments, greatly benefit from River House's team of nurses, health aides, and therapeutic recreation staff who are trained to support their unique needs. River House follows a medical care model where nurses work with every member, their doctors, and their family to provide a personalized plan of care that enhances the member's overall well-being. By providing this crucial daytime care, caregivers are given the respite and peace of mind needed to care for themselves and their loved ones effectively.

River House was founded in 1977 and remains committed to providing the highest quality care to aging adults in Greenwich, Stamford, and the surrounding areas while offering guidance and support to their caregivers. We are proud of our history of service to these communities.

Dear Friends,

It's hard to believe that the pandemic has been upon us for more than 18 months. While some might say that life stopped in March of 2020, at River House, our determination to serve our community at a higher level had only just begun. The pandemic became our opportunity to create a new and improved way to safely do what we are committed to doing-- supporting our community. The River House staff, Board and Advisory Board has continued to face the challenges associated with the pandemic with courage, determination, and commitment to our community. Since the start of the pandemic, we have continued to respond with, "Game On, COVID!"

Throughout our brief shift to remote services, we heard our families' pleas to return to the building that so many of us call home. We witnessed the declines in health associated with social isolation and a lack of hands-on nursing care. The stress felt by our family caregivers was palpable. Therefore, in record speed, we created a safely orchestrated return to our onsite program in July 2020. For many months, we juggled onsite programs for those who returned while also accommodating those who remained at home. And then in January of 2021, we were fortunate to receive the vaccine. By the end of February, our entire staff was fully vaccinated and by April of 2021, every River House client was fully vaccinated. We continue to proudly announce that River House is a fully vaccinated adult day care center.

The last year did not pass without challenges, particularly financial challenges. We are forever grateful to you for empowering us with your outpouring of support. Thanks to you, last year's Annual Appeal was the most successful than ever before. We carefully planned a live, in-person event, *Game On!* and many of you came out to show your support. You believed in us, and we cannot thank you enough.

We cannot predict the future but there is one thing that we know for certain. If we continue to march forward with the same courage, determination, and commitment to our community that we have had all along, we will face every challenge and obstacle as our opportunity to rise to the occasion. Game On!

We thank you for your support and for entrusting us to continue to support our community.

Very Sincerely Yours,

A handwritten signature in black ink that reads "Donna Spellman". The signature is written in a cursive, flowing style.

Donna Spellman, MS
Executive Director

“Re-opening in July 2020 is living proof that River House is dedicated to providing quality of life for their clients and their families. It’s been ‘Game On!’ ever since at River House.”

- Peggy Martino

Dear Friends,

It is with deep gratitude and pride that we dedicate this 2021 Annual Report to our true heroes; the entire team of professionals at River House and to our generous donors and amazing volunteers who supported them during this challenging year. With this support, River House continues to provide a nurturing, fun and stimulating environment of care to older adults in our community who, because of declining physical or mental health, lack socialization or are no longer safe to be alone in their home. River House supports the families in our community to continue to work and tend to their busy lives while still fulfilling their promise and desire to care for their loved ones.

There is no question that the COVID 19 pandemic had an impact on River House, affecting our clients, families and our finances. However, through the courage, persistence and creativity of our staff, River House was among the first care facilities in the state to re-open in July of 2020, providing safe on-site care throughout the fiscal year by following strict guidelines for COVID testing, masking, hand washing and distancing protocols. In fact, it was the resilience of the staff, clients and families that inspired the naming of our fund-raising event last July called *Game On!*

It's been "Game On" ever since at River House.

River House is a jewel in our community, meeting a specific need in the healthcare continuum for older adults including those requiring dementia care. In my profession as a practicing nurse, I saw, all too many times, families having to make the painful decision to institutionalize their older loved ones after a decline in health that surpassed the family's ability to cope. These families did not have a place like River House to turn to as a true partner in care. As a volunteer, friend and supporter of River House, YOU make it possible for us to fill this critical and unique aspect of care for our community.

As you read this Annual Report, we hope you can continue your generosity and see the impact your support makes through the stories of the lives herein that we have the privilege to share in every day.

Sincerely,

Peggy

Peggy Martino
President, Board of Directors

We are a lifeline for families

Clients are entering our program older, sicker, and with fewer financial resources, presenting a challenging economic equation for such a critical need. Over 85% of adults 65+ prefer to stay in their homes as long as possible. We can help make that happen. River House is the only health-based adult day care center serving the Greenwich/Stamford area.

We are here to support our community when life brings unexpected difficulties. We assist people with cognitive or physical challenges who wish to remain in the comfort of their own home, supported by the people who love them the most.

We are a 100% vaccinated facility

“When River House was closed it was very difficult. It was a relief to bring mom back to River House, not only for our family but for mom who missed being with everyone. She looks forward to going to River House each day. She has made wonderful friends with the other seniors and great staff.”

- Toni Syrotiak, daughter and caregiver

We care about caregivers, too

“We are so grateful to have River House. We know that having you guys there for Maureen has truly extended her life and happiness.”

- Pat and Kate Flanagan
sisters and caregivers

Most families prefer to have their loved ones home with them as they continue to age. As a result, the numbers of family caregivers is up significantly in 2021. We understand what an impact the challenges associated with caregiving can have on every family member. We are here to help ease the stress by offering support for the entire family.

Game On! was our long-awaited summertime fundraiser, held on a beautiful evening in July at River House. We welcomed 120 guests to eat, drink and play games – all the games that our clients enjoy every day, including Cornhole, Balloon Volleyball, Giant Jenga, and Mini Golf. A party-themed Silent Auction, festive wine pull and sweet sounds by Cover Story, all contributed to a night to remember. *Game On!* raised over \$55,000 to support River House’s client scholarship fund.

99 Days

99 Days =
306.9 miles =
11.8 marathons

14 people
participated
and 99 people
were honored

For 99-days, Memorial Day through Labor Day, our Executive Director, Donna Spellman, vowed to run a 5K every day, to raise awareness and honor a different River House client each day by wearing their picture on her shirt and later hanging it at River House and posting it on social media.

When your legs can't run anymore, run with your heart.

On any day, there could be 5-6 people running, walking or cycling, all honoring a member

Run for River House

"Our staff and volunteers are so devoted. It is an honor to run for them, too"

Strength grows in the moments when you think you can't go on but you keep going anyway

After a tradition of 3 years running 5ks for River House, Donna invited others to join in

“Everyday can feel like a marathon when people are caring for a loved one.”

- Donna Spellman

Over 16 staff and board members ran, walked, cycled and even paddle boarded, wearing a picture of a River House member

Run for their life

Families and friends followed on Facebook and Instagram

Clients enjoyed seeing their photos hanging in River House

99 Days raised **\$8,000 +** for River House scholarships

“We dedicated each day to people we respect and value.”

-Donna Spellman

The significance of our past

helps us walk into our future

River House Adult Day Center was founded in 1977 in response to a Greenwich United Way and Commission on Aging study, which suggested the need for a community program for seniors too frail to participate in the Greenwich Senior Center activities. The program, originally called The Witherell Pavilion Club, started in the lower level of the Nathaniel Witherell building. It was so successful, we relocated to our own, dedicated building in 2008. Thanks to the generosity of donors, we were able to raise \$6 million during the Building Capital Campaign from 2005-2008.

The current location is a beautifully renovated 1927 Pump House on the Mianus River, originally supplying water to the Cos Cob Generating Plant next door. The fishway staircase on the side of the building has been retained, and is used to count the yearly migration of Alewife, Blueback Herring, and other species, who ascend the fish ladder once a year, giving conservationists a sense of conditions in the ocean. An average of 5,600 different fish species pass through the Mianus Fishway.

The River House interior is sunny and bright, with views of the river and two floors of wide-open spaces that are flexible enough to accommodate several activities at once yet provide intimate spaces when necessary. The exposed brick and features of the original pump house reminds us of what we loved about our past but are a beautiful example of how we can re-imagine our life for the future.

“You can’t help but be happy when you walk into River House.”

“It is because our own human existence is so dependent on the help of others that our need for love lies at the very foundation of our existence. Therefore we need a genuine sense of responsibility and a sincere concern for the welfare of others.” -Dalai Lama

The River House Team

Early in the pandemic, the staff at River House realized the vital need to re-open our doors to ease the stress of social isolation, assist with hands-on nursing care and to offer family and caregivers a much needed break. Following CDC guidelines and using high level sanitation, testing, and safe distancing, we re-opened in July 2020.

We honor our brave, compassionate team of professionals who appreciate the importance of what we do at River House and has walked through our doors during a pandemic to face a new day, every day. We are proud that every staff member is fully vaccinated, striving to keep our clients and their families safe and healthy. We meet life's challenges, we go the extra mile. So we accept the challenge, GAME ON!
